

Quick Reference Guide for PhoneMail Users

PhoneMail Systems
Release 6.4

How PhoneMail Helps You

The PhoneMail system helps you because it:

- Answers your telephone automatically and plays your personal greeting.
- Lets you call one number to access your messages if you are a mobile telephone user.
- Lets you listen to your most recently received message first.
- Lets you listen to all headers and messages played back in a continuous manner without prompts to save or delete each message.
- Accepts and stores voice messages in your PhoneMail mailbox.
- Lets you play back your messages at your convenience.
- Lets you send and receive messages anytime, from anywhere.
- Notifies you of new messages through pagers and telephones.

Contents

This quick reference guide tells you:

- How to access PhoneMail, get help, and leave PhoneMail messages.
- How to use PhoneMail's most popular features.
- How to use PhoneMail's telecommunications device for the deaf (TDD) features.
- How to use the PhoneMail decision tree.
- Where to write your access numbers and personal distribution lists.

Accessing Your Mailbox

Direct Access

1. Dial the PhoneMail *direct access number*.
2. Press **#** if calling from your own extension, or
if calling from another extension, dial your *extension number* (or your *name* if permitted), then press **#**.
3. Dial your *password*, then press **#**.

Greeting Access

1. Dial your *telephone number* or *extension*.
2. During the greeting, press **5** to access your mailbox.
3. Dial your password, then press **#**.
4. Press **5** to listen to your messages in continuous playback order.
5. Press ***7#3** to listen to your messages in the standard one at a time playback order.

Callback Access (Available in PhoneMail Release 6.0 or later)

1. From your extension, press the *callback button* on your ROLMphone telephone (or your telephone's equivalent *repeat dial* or *speed dial* button).
2. Dial your *password*, then press **#**.

The first time you access the PhoneMail system, change your password. (Refer to “Changing PhoneMail Messages” on page 10.)

Your PhoneMail Access Numbers

Your system administrator provides access numbers. Write yours here:

Direct access number _____

Greeting access number _____

Guest access number _____

TDD access number _____

Forwarded or transfer access number _____

Getting Help

Press **0** to get help in using the PhoneMail system.

Leaving PhoneMail

When you finish using the PhoneMail system, you can:

Hang up, or press ***** **7** **6** to *disconnect from* the PhoneMail system.
