Quick Enrollment

The Quick Enroll page is used to add, drop and swap students in classes. You can add more than one class on the same Enrollment Request. If you are going to drop or swap a class it is suggested that you do so on a separate Enrollment Request.

To Add a Class

Navigation:

Records and Enrollment > Enroll Students > Quick Enroll a Student

Make sure you are at the Add a New Value tab
Enter the student’s Stony Brook ID, Academic Career, Academic Institution and Term
Click Add

IMPORTANT! Do not click Find an Existing Value. Updating an existing Enrollment Request causes the information on the original transaction to be lost.
Check the status next to each class. If the enrollment was posted with no problems the status will change from Pending to Success or Messages.

If it says Errors then click the link and read the error message. Some errors may be overridden (depending on your level of access in PeopleSoft).

If you do not know the Class Number, then you can search for it by Subject and Catalog Number.
