

Instruction page for Elmo EV-368 Document Camera

Setup:

- (1) Plug in Elmo Document Camera.
- (2) Turn on main power switch (by logo).
- (3) Raise right and left lighting unit arms.
- (4) Press “unlock” button to move camera unit into an upright position, over document display area. Use push button release on side of camera head to swivel lens.
- (5) Connect video cable from “video out” on back of document camera to “video in” on projection unit.
- (6) Turn on lamp.
- (7) Select light through lighting unit arms (for documents) or base (for 3 dimensional items).
- (8) Choose “Internal” on video selector.

Fine tuning:

- (1) Use push button release on side of camera neck to extend camera head, for full page projection.
- (2) Use Iris “+”/ “-” for image brightness.
- (3) Use Focus In/Out for image clarity.
- (4) Use Zoom “Tele”/“Wide” for image distance.
