Pre-Requisite Screening

Some departments use pre-requisite screening to ensure that only students with proper academic credentials are able to enroll in courses.

Requests for pre-requisite screening must go to the contact in your School or College. This must be setup before enrollment begins.

Use the **Adjust Class Associations** page to view the pre-requisites for a course and to see whether pre-requisite screening is being used or not.

**Navigation:**

Curriculum Management > Schedule of Classes > Adjust Class Associations

Pre-requisite screening is being used if this box is checked.
